Brand Book and guidelines - **2025**

Logotype and how to use it.

Main Logotype

This is our main logotype. Please use this logo according to the further mentioned guidelines to maintain a clear and consistent language throughout all printed and digital materials.

POSITIVE LOGOTYPE VERSION

Used on light backgrounds

NEGATIVE LOGOTYPE VERSION

Used on dark backgrounds

SPACE AROUND THE LOGOTYPE

In order to make sure the logotype is legible it needs some white space around it. Please avoid placing anything in the free margin around the logotype. The free margin is created by taking the width of the lighthouse as a freezone around the logotype.

USE THE LOGOTYPE CORRECTLY

The logotype should always maintain the original proportions and colours. There should always be enough background contrast and the correct amount of free space around the logotype.

DESCRIPTION

Design Elements:

The left side showcases an abstract triangular shape, composed of layered and overlapping colorful fragments. The fragments include vibrant shades of purple, yellow, orange, and blue, resembling wings or dynamic motion.

The right side contains the text.

Typography:

The text is divided into two parts:

"WIDE WINGS": Bold, capitalized, sans-serif font, representing strength and modernity.

"media & advertisement": A smaller, light sans-serif font below, complementing the main title with a clean and professional feel.

Layout:

The wing design is positioned to the left of the text, creating a balanced and visually engaging composition.

The bold text contrasts with the vibrant colors of the wing, drawing attention.

Logotype:

This logo is a combination mark, as it combines both text and a graphic element (the wing). The graphic and text are distinct yet complement each other, making the logo versatile for various uses, such as branding, advertising, and digital/print applications. The abstract, dynamic design aligns with themes of creativity, growth, and movement, fitting for a media and advertisement company.

The Basics & How
To Use Them

COLOURS PRIMARY PALETTE

Using blue and white as main colours invoke a clear, fresh and recognisable feel. Use black, violet and pastel yellow as main background or as a title colour.

COLOURS SECONDARY PALETTE

For certain purposes, adding some extra colour can both look good and be functional. Depending on the design the colours from the secondary palette can be used as an additional background colour or e.g. for highlighting a subtitle or as a pop of colour around a boxed text.

Tip: to keep the design fresh and strong sparingly add colours. Especially when it comes to text you want to dazzle your reader with the message, not with a rainbow of colours

SHARP Edges Visuals

Sharp edges in design convey precision, strength, and modernity. They create a sense of confidence and boldness, aligning with brands that want to exude authority and clarity.

The background is a solid purple color. It features several abstract geometric shapes in yellow and a darker shade of purple. In the top left, there is a yellow trapezoid. In the top right, there is a yellow chevron pointing right. On the left side, there is a large yellow triangle pointing down, and below it, a yellow trapezoid. In the bottom left, there is a dark purple hexagon. To its right, there is a yellow trapezoid, and further right, a yellow triangle pointing up. The text 'SOCIAL MEDIA' is positioned on the right side of the image, centered vertically.

Website **EXAMPLE**

The background of the image is a solid purple color. It is decorated with several large, overlapping triangles in shades of yellow and gold. One large yellow triangle points upwards from the bottom center. To its right, another yellow triangle points downwards. In the top right corner, a smaller yellow triangle points downwards. A dark purple triangle is positioned in the lower right, overlapping the bottom of the central yellow triangle. The overall style is modern and geometric.
